Genuine Ingenuity

Our land planning practice follows a multi-disciplined approach, with the combined expertise of civil engineers, landscape architects and planners. We excel at both private and public sector projects because our teams know the landscape well – the major players, the regulations in place, the existing infrastructure and urban design requirements. Community improvements are integral to our work, whether we are creating site plans for a private development, designing public spaces and bike/pedestrian paths, or incorporating green, low-impact features. We deliver thoughtful and comprehensive roadmaps for large and complex as well as small-scale projects, keeping in mind that every plot of land has unique challenges.

Services we offer:

Landscape Architecture	Phase One Environmental Assessments
Civil Engineering & Infrastructure Design	Surveying
Stormwater Management	Infrastructure Design
Master Planning	Design Review Boards
Urban Design	Variance Requests
Visioning & Property Evaluations	Traffic Impact Studies
Community Standards	Bridge Design
Entitlements	Lot Fits & Residential Site Plans
Sustainability Design	Regulatory Permitting
Wayfinding Signage	SiteOps Conceptual Analysis
Recreational Amenities, Parks & Entries	Due Diligence
Stream & Wetland Determinations	

We leverage the expertise and collaborative thinking of civil engineers, landscape architects and planners to provide custom solutions that help you grow livable communities.

MARKETS

Airports are as unique as the regions they represent, and we pride ourselves on delivering individuality balanced with the ever-changing demands of the aviation industry.

As design professionals we have considerable experience for developing building systems that are cost effective and reliable.

From fundamental interior renovations to complex headquarter campuses, our award-winning project teams focus on the design goals that support a client's success.

Our professionals bring extensive experience in new plant design, expansions and system modifications, and offer essential design services across many industry segments.

Since our founding, healthcare facility and hospital design has been our primary business, and we are now one of the nation's leading healthcare professional design firms.

Whether as a direct partner or a complement to our other markets, our land planning professionals provide necessary expertise throughout the life of a project.

The capacity to handle everything from planning to technical design for transportation projects sets us apart from many other firms, and we've been doing so for almost four decades.

Our environmental services teams offer diverse expertise for airports, municipal and state governments, ports, and industrial facilities.
